Our Commitment & Vision :

To generate eco-friendly environment by reducing carbon emission into the atmosphere & ZDHC Chemical Management practice to meet vision ZDHC 2020.. We have highly trained & professionally competent EMS responsible person and ECR (Environment & Chemicals Responsible) who have distinguished academic credentials of B.Sc. in Chemical Engineering to evaluate their effective supremacy in the area of Environment & Chemical related requirements even upcoming environmental challenges. The entire EMS & ECR functions are being closely monitored & proper feedback given by-

Environmental Policy

Scope of the Policy:

- Stimulating and improving traditional manufacturing process to ensure environmental sustainability.
- Continually integrating and developing environmentally more acceptable product with economical way.
- Minimizing wastages and conserving resources such as water, energy, oils, chemicals, dyes and paper.
- Compliance with relevant Rules & Regulations.
- Keeping EMS alive through review of environmental objectives and targets.
- Maintaining net & clean working environment.

Environmental policy has been displayed and communicated so as to be understood by all the personnel of the factory who are affected as well as customers, clients, public & other stakeholders.
